

Washington

REDSKINS

HUDDLE

1. Center set the Huddle 7 yards from the ball.
2. The Huddle is oval.
3. Line up with hands on knees. See the QB.
4. The QB is in a position to receive the bench signal.
5. Procedure:
 - 5.1 The QB steps into the Huddle and calls:
 1. The formation - motion - shift.
 2. The play.
 3. Snap Count - repeated.
 4. Ready - break ...
 - 4.1 WRs leave after 1st snap call.
 - 4.2 All clap hands
 - 4.3 Linemen turn out side.
 - 4.4 QB leaves last - scan the Defense.
6. QB ALERTS:
 - 6.1 Let the WRs leave, then call "Ready - Break."
 - 6.2 Approach the L.O.S. the same way each time.
 - 6.3 Always check the 30-second clock.

SNAP

1. THE TEAM AT THE L.O.S.:

- 1.1 OL Down - 3-Point Stance
- 1.2 TE Down - 3-Point Stance
- 1.3 H/R 'Up or Down by Formation.
- 1.4 WRs Up or Down by Formation.

2. THE QUARTERBACK AT THE L.O.S.:

- 2.1 Scan the Secondary.
- 2.2 Check the Front/Box.
- 2.3 Call set - pause.
- 2.4 Call live or dead color, plus a number -- repeat.
- 2.5 Count begins - "Hut" signifies each count.
- 2.6 Count is rhythmical unless QB calls Hard.

3. BASIC SNAP:

- 3.1 on Hike: Ball snapped on the word "Hike".
- 3.2 on Go: Down-Set-Go.
- 3.3 on 1-2: Down-Set-Blue 20-Blue 20-1st-Hut, 2nd-Hut
- 3.4 on Hard 3: Down-Set-Blue 20-Blue 20-Hut-Hut-Hut
- 3.5 on Hard 4: Down-Set-Blue 20-Blue 20-Hut-Hut-Hut-Hut

4. ALTERNATIVE SNAP:

4.1 Double down on "Go":

Down-Down-Set-Go

4.2 Double down on 2:

Down-Down-Set-Blue-20-Blue-20-Hut-Hut

4.3 Double Cadence on 2:

Down-Set-Rose 20-Rose 20-Silver 80-Silver 80-Hut-Hut.
(Rose + Tip/Rose + Tip) + Audible Color + No.

5. SHIFT ON DOWN

6. MOTION ON 1ST OR 2ND COLOR BY DISTANCE.

7. RALLY - NO HUDDLE - BALL SNAPPED ON DOWN - SET - GO.

8. RED BALL - TWO MINUTE - BALL SNAPPED ON SET - GO

AUDIBLES

1. QB Approach - Check out of a poor play by game plan.
2. QB Procedure:
 - 2.1 Check the defense.
 - 2.2 Call the live color and the new play - pause.
 - 2.3 Backs and Receivers shift if necessary.
 - 2.4 The "Audible" snap count is 2.

CHECK WITH ME

1. "Check with me" will be called in the Huddle from the bench.
2. A given formation will be assigned a designated "check with Me" package based on the Defense by formation.
3. QB Huddle Call:
 - 3.1 A Formation -Possible shift or motion
 - 3.2 A Play Call -Run to Run, Run to Pass, Pass to Pass.
4. QB at the L.O.S.:
 - 4.1 Check the box, front, and support look.
 - 4.2 Call the code for the play to be run.
 - 4.3 The "Check with Me" snap count is 2.

PLAY CALLS

1. RUN-IT PLAYS:

1.1 Plays called with specific formation-movement-snap.

2. AUDIBLES:

2.1 Standard plays the QB can call when a "Run-It" play has no chance verses a given defense.

3. "CHECK WITH ME" PLAYS:

3.1 Plays called with specific formation-movement-snaps that are good verses specific front-support-box number count.

4. NO HUDDLE:

4.1 RALLY: The QB sets the offense in a specific formation at the L.O.S., then calls a play good verses a specific front-support-box number count.

4.2 RED BALL: Two-minute call by the QB when the clock is running. The QB sets the offense in a specific formation and makes specific play calls based on the clock, field position, and defensive looks.

GAME SITUATIONS

1. KNOW THE SITUATIONS
2. KNOW THE DEFENSIVE TENDENCIES BY SITUATION
3. KNOW HOW DEFENDERS PLAY BY SITUATIONS
4. BASIC SITUATIONS:

1st & 10

2nd 1-6

2nd 7+

3rd 2-6

3rd 7+

5. SPECIAL SITUATIONS:

RED AREA +25 IN

SHORT YARDS

GOAL LINE

2-MINUTE - AHEAD END OF HALF / GAME

2-MINUTE - BEHIND END OF HALF / GAME

6. NOTE:

We already know the play and the snap count.
The ability to anticipate the defense is directly
related to knowing how the opponent plays in
any given situation.

FORMATIONS -- MOVEMENT

FORMATIONS NOMENCLATURE

1. 2 BACK:

X-Z - WIDE RECEIVERS

Y - TIGHT END

T - TAILBACK

F - FULL BACK

2. 1 BACK:

X-Z - WIDE RECEIVERS

Y - TIGHT END

R - REMAINING BACK

H - H BACK

3. The Y (TE) aligns to the call: RIGHT/LEFT.
4. The Backs align by the formation call: NAME
5. The Wide Receivers align by formation/variation call: NAME
6. RUN STRENGTH - to the Y (TE) side.
7. PASS STRENGTH - to the 2 Receiver side.

NOTE:

Defensive front calls are by the Y (TE) location.
Defensive coverage calls are by the 2 Receiver location.

FORMATION TERMINOLOGY

- | | |
|-------------------|--|
| 1. STRONG SIDE | 2 Receiver side on pass - Y on run. |
| 2. WEAK SIDE | 1 Receiver side on pass - open side on run. |
| 3. CLOSED SIDE | The side with an End next to the Tackle. |
| 4. OPEN SIDE | The side with no End next to the Tackle. |
| 5. ON SIDE | The side of the formation to the play. |
| 6. OFFSIDE | The side of the formation away from the play. |
| 7. Q POSITION | Back aligned behind the QB. |
| 8. T POSITON | Back aligned behind the Tackle. |
| 9. NORMAL | X aligned opposite Y and Z. |
| 10. SLOT | Y Aligned opposite X and Z. |
| 11. SHIFT | Receiver/Back move then set before the snap. |
| 12. MOTION | Receiver/Back move during the cadence. |
| 13. FAKE MOTION | Start motion called, then return to original position. |
| 17. ADJACENT RULE | Backs/Receivers never line up next to each other on the L.O.S. |

CALLING FORMATIONS

SEQUENCE FOR FORMATION CALLS

1. Any shift by Receivers or Backs.
2. Backfield set.
3. Direction of TE (Y) - Right/Left
4. Receiver adjustments - Tight/Wing, etc.
5. Receiver motion (X-Y-Z)
 Into the formation call: Spread Rt Zoom (Z) / Fly (Y)
 Out of the formation call: Double Rt Spear (H)
6. Back motion (R/T - F/H).
 Out of the Formation call: Trips Rt Whiz (H)

SHIFT/MOTION SNAP

MOVEMENT STARTS:

1. SHIFTS start after Down or Down-Down
2. TE/ H MOTION starts on 1st color
3. TE/H QUICK MOTION starts on 2nd color
4. X/Z MOTION starts on 1st color
5. R MOTION starts on 1st color

MOTION SNAP COUNTS:

1. Basic on White
2. Fake on White
3. Long on White
4. Quick / Short on Red
5. Blue / Double Down / Double Cadence

HUSTLE CALL BY THE QB:

1. Calls off all movement.
2. Used when clock is short

MOVEMENT

MOVEMENT IS VERY IMPORTANT TO OUR TOTAL OFFENSIVE SYSTEM. THERE ARE SEVERAL REASONS FOR MOVEMENT IN OUR OFFENSE; AMONG THE MOST PROMINENT REASONS ARE:

- 1. To create a personnel advantage by creating coverage mismatches on our Receivers or Backs.**
- 2. To create a personnel advantage by effecting changes in run support and force responsibilities.**
- 3. To create secondary movement in an effort to better enable our Quarterback to recognize coverages.**
- 4. To get our personnel in better position to execute their given assignment.**
- 5. To create problems for the defense in Man under coverages when attempting to hold or bump Receivers at the line of scrimmage.**
- 6. To create an opportunity for indecision, confusion, and/or mis-alignment by the secondary.**
- 7. To cause movement on the part of the Defense in an effort to realign their personnel with the coverage calls and changes and not allow them to set themselves and react to familiar offensive patterns. Make the Defense play "on the move."**
- 8. To force opponents to spend practice time and effort on adjusting to movement patterns rather than improving defensive skills and schemes.**
- 9. To create a visual complexity to the defense, yet be able to run the same basic plays from a variety of looks.**

NINER FORMATION

IMPORTANT:

1. STRENGTH OF ALL FORMATIONS = SIDE THAT Z IS ON (HE & Y ARE ON SAME SIDE IN EVERY FORMATION EXCEPT THE "FLOODS"). "FLOOD" IS ONLY TIME Y IS AWAY FROM STRENGTH DIRECTION CALL.

BUNCH RT.

2. "MIRRORED" TYPE FORMATIONS (UP; DUECE; BACK; NINER) DO NOT HAVE A "RT." OR "LT." CALL. ALWAYS LINE UP AS SHOWN IN DIAGRAMS.

3. RB CAN ALIGN BEHIND EITHER T OR G (AS WELL AS THE QB) ACCORDING TO HIS ASSIGNMENT (IN ANY FORMATION).

*HIS POSITIONS ARE TERMED "Q" (BEHIND THE QB); "G" (BEHIND THE G); AND "T" (BEHIND THE T).

4. TO SIMPLIFY "H's" MOTION CALLS, WE HAVE THE SIMPLE RULE (REGARDLESS OF FORMATION) THAT IF HE MOTIONS TOWARDS Y IT IS CALLED "MOTION"; IF

HE MOTIONS AWAY FROM Y IT IS CALLED "WHIZ".

TE/H BLOCKS

DRIVE *

IS AN AGGRESSIVE FACE-FISTS THRU THE NUMBERS. PUT HAT DOWN THE MIDDLE. LEAD STEP WITH THE NEAR FOOT-GET THE 2ND DOWN FOR POWER. DON'T CROSS OVER!

Bugel (1987 KODAKS)

(EXPLAINS RUN
BLOCKING)

COACHING POINTS - BASIC RUNS

I. 20-30 Reach (*Zone Trap*)

- A. On T: Vs. 34, influence step for E's outs. #; if he steps w/you lock on to him; if he goes inside work up on LB. Vs. 43, lock on to E.
- B. On G: Vs. 34, lateral step thru hip of Nose; if hip disappears go on BSLB. Vs. 43, influence step & execute same as On T vs. 34.
- C. C: Vs. 34, set step away from call & post opposite # looking for LB run thru. Vs. 43, block offside T.
- D. Off G: Trap thru the ball. Vs. 34 eyeball E's inside knee; if he closes trap; if he widens work up on LB. Vs. 43 use same technique eyeballing T.

II. 40-50 Gut (line must get movement; H Back block Sec. Force)

- A. QB: *(NOW OPENS AT 5 O'CLOCK) (7 = 10 FT)*
~~Reverse~~ pivot & hand the ball off deep (5 o'clock). Drop back & fake 40-50 Charley.
- B. RB: $5\frac{1}{2}$ yds. deep (heels). 1st. step w/onside foot, roll, crossover, aim nose for T's butt (inside hip). Key T's block & cut (make cut on their side of L.O.S.) C.P. 1. if E pinches down, bounce one hole wider; 2. if E & OLB pinch, bounce it outside; 3. if 4 or 5 tech. stretches, cut it inside him (has cut back as far as behind Nose). *Must hit L.O.S. w/shoulders square so can cut.
- C. Y: Drive block outs. # of OLB - mirror feet w/OLB.
- D. On T: Vs. 34, execute "read" scheme w/On G. Take lead step w/outs. ft. eyeballing outs. # of E - 2nd. step w/ins. ft. thru crotch of E. You must think man block on E & only go to LB when wiped off by On G. 3 situations usually occur: 1. E plays 5 tech. & stretches - you stay on E & G works up on LB; 2. E anchors in 4 tech. use DT tech. driving E into LB & stay on E until wiped off by G then work straight up on LB; 3. E in 4 tech. & slants force E to flatten slant & stay on till wiped off by G then go straight up on LB. Vs. 43, drive block outs. # of E.
- E. On G: Vs. 34, execute "read" scheme w/On T. Drop or bucket step and catch up w/On T as you eyeball near knee of E. As you work up thru B gap, if inside knee comes towards you block his ins. # & fit him up sliding in direction he is going; if knee doesn't come towards you work up on LB. 3 situations same as under On T. Vs. 43, "read" block w/C (you execute same as On T vs. 34, & C same as On G vs. 34).

Note: if stay-
ing on E, eye-
ball LB in case
he comes ins.

F. C: Vs. 34, execute "scoop" scheme w/Off G (similar to On T vs. 34 except slightly wider). Vs. 43, execute "read" scheme w/On G (similar to On G vs. 34) by stepping to near knee of T - n/t go up on MLB.

G. Off G: Vs. 34, execute "scoop" scheme w/C (similar to On G vs. 34 except slightly wider). Vs. 43, cut off T. Note: if LB up in 34, or DT in 3 tech. - "man" call for Off G & C.

H. "Man-^call" for On G, On T & Y if E & OLB are both pinching inside. FB bounces outside (or call 60-70 Outside).

III. 60-70 Outside (H Back block Sec. Force)

A. QB: Same as 40-50 Gut. (NOW OPENS AT 4 O'CLOCK)
B IF LEFT

B. RB: pivot on onside ft., crossover, & take 1st. step w/off-side ft. Be 3-3½ yds. deep when you get ball. Flatten out & read block of TE (& feel block of On T). 1. TE hooks go around; 2. OLB skates plant & cut ins.; 3. won't go inside your T unless 4 or 5 tech. stretches.

C. Line: "read" call (only difference from 40-50 Gut is that it is a wider reach - G will stay on 4 tech & T definitely come off on LB vs. 34. On G aims for ins. #, & On T reaches outs. # towards gap (almost to hip of TE) & comes off hard 4 tech. Otherwise same as 40-50 Gut.

D. "Gang" call: On G, On T & Y are in a 3 man "read" scheme. (if E & OLB On G piggybacks On T; On T piggybacks Y; Y pinch ins.) won't release on LB unless wiped off by On T.

IV. 60-70 Counter (H Back may or may not block Sec. Force)

A. QB: ^{open} Reverse pivot exactly like 40-50 Gut - hand back to RB. Very important to fake boot pass opposite P.O.A. after handoff.

B. RB: Make look like 40-50 Gut opposite P.O.A. by taking a flat lateral step w/head & shoulder fake then driving parallel to L.O.S. to onside. Key block of Off T cut in or out according to his block

C. Y: Vs. 34 & 43, block E (can't allow penetration). May get help from On T but don't count on it. Gap step eyeballing E's near hip aiming your near shoulder for his near ½ - don't come off E unless he disappears across T's face.

D. On T: Vs. 34, gap step thru E's inside # (armpit, breast-plate, etc.) w/outs. shoulder (just get a bite to help Y). Responsible for LB run thru - no run thru then BSLB. Vs. 43 T & G will DT def. T (resp. for 2 tech. & MLB: On G watches MLB run thru as T does vs. 34).

FAR

- E. On G: Vs. 34, same tech. as Y. Vs. 43, same tech. as On T vs. 34
- F. C: Vs. 34. ~~same tech. as On T.~~ ^{Block DE} Vs. 43, block offside T.
- G. Off G: Pull - think trap on end man on L.O.S. If he closes log him in.
- H. Off T: Pull a little deeper than Off G so can go inside or outside of his block. (turn in on F.S.L.B)
- I. 60-70 Counter Bluff - H back step to influence OLB then turn out on S/S.
- J. 80-90 Counter - H back block down on OLB. Off G pulls on S/S & Off T leads RB around the corner.
-

V. 80-90 Truck (AB Loss)

- A. H Back, Y, On T block "truck" call vs. 34.
- B. On G: check LB run thru - n/t pull around vs. 34.
- C. Off G & C: execute "scoop" call same as 40-50 Gut vs. 34.
-

RB's on counter
now hit it more
downhill, & can
hit A, B, C, or D
gap in that order.
Still best to be
following backside
Tackle (or H/Y) if
he "switches" w/OT.

(Zoning)

I. ON-SIDE LINEMEN (COVERED) Note: Splits are G/2 ft.; T/2 ft.; TE/3 ft. (Rule=base)

A) "DROP-STEP" TECHNIQUE - used vs. a man head up or outside shoulder who is reading (or using the basic slant technique). Line up in the "semi" position (half way between on and off - helmet on the Center's shoulder pad). Take a short natural drop step with the on-side foot (the wider the defender, the deeper the drop step). Sight your aiming point which is 3-4" outside the defender's middle. Cross over to about mid-point of your center of gravity (don't cross over too far, because the defender might be able to come back inside of you). Cover all of the man with your shoulders turned slightly on the "power angle". The contact is made by using a slight windup, and a punch-grab-lift with the double fist (no open hands) and face - get under the defender's pads. Maintain the wide base and drive, dig, root, and sustain. If your man moves too far outside, "twist (w/ins. hand) him out" (but don't twist him out too soon - purchase more surface by staying on the block a little longer). When the defender takes the pressure off you to make the tackle, "finish him" by just pushing him (if you are stalemated, just keep your feet moving until he tries to disengage, and then "finish him").

B) "TUFF" TECHNIQUE - used vs. a defender who is head on or on your inside shoulder, and who tries to blast over you or thru your inside shoulder (splitting the "gray area" between you and your inside teammate that you are zone blocking with). Take a quick drop step with your outside foot (just up and down), then take a 3" step with the inside foot and fire into the middle of the man. Keep driving, and don't come off on the LB until you are at LB depth.

II. ON-SIDE LINEMEN (UNCOVERED - ZONE BLOCKING WITH OUTSIDE TEAMMATE)

A) "BUCKET STEP" TECHNIQUE - used to block a LB ("bucket" step means the same as "drop" step, except it denotes that you are blocking a LB). Line up off the ball as far as legal (your hand on the Center's toes). Take a bucket step with your outside foot (the deeper the LB, the deeper the bucket step). You turn your shoulders more because of a deeper drop. Cross over to about your center of gravity and take an angle that will intersect the LB's path to his area of responsibility (you must stay on this track and keep going). This should put you behind your outside teammate ("piggyback" him) to cut down penetration in the "gray area". Keep your eyes on the LB but put one hand out (so that you won't get over your center of gravity) to feel for the down lineman to the outside, and give him a push to help your teammate to the outside. Don't block the LB until you get to the depth of the LB (you don't block the LB square because that would give him a two way go - you turn and block him with a shoulder lift). If you read fast flow, go immediately from one hand to two hands, and knock the hell out of the down lineman (who is probably working into the "gray area"). Maintain the wide base and blow the defender to the outside (into the same area the LB scrapes - put two men in one gap). Note: when going to two hands, be sure that the LB isn't plugging back inside, because you would be beyond your center of gravity and would have a hard time blocking him.

(continued on p.2)

When using the "Bucket Step" technique, gauge the depth of the LBer. If he is 2-3 yards deep, he probably has an inside fill and won't fast flow to the outside. When he is 4-5 yards deep, he is probably fast flowing, and the zone blocking principles (working with your outside teammate) come into play. Two primary situations vs. fast flow LBers are as follows: 1. If the down lineman is plugging tough thru the inside shoulder of your outside teammate, you will both stay on the double team until your outside teammate gets to LB depth, then he will come off on the LB. 2. If the down lineman is slanting all the way down to the inside, you zone it and end up switching with your outside teammate (he will give the slanting defender a shot with his hands to the inside, and come off on the LB - he won't stay on the double team vs. a "slant" as long as he would vs. a defender in a "tuff" technique).

III. OFFSIDE LINEMEN (COVERED AND WORKING ALONE)

- A) "RIP" TECHNIQUE - used to cut off backside defenders away from the point of attack. Take a quick drop step and really exaggerate the shoulder turn (giving the defender only the point of your shoulder to hit). Sight your aiming point which is a half a man to the outside of the defender (this is a wider head position than is being used by the onside linemen). The crossover is emphasized more on the "Rip" technique, because you must get over quicker and cut the man off. "Rip" the backside arm thru in an uppercut to the outside arm pit of the defender. If the defender goes behind you, "ass block" him (back up on him). Try to make him go behind you, and if he jumps way around behind you, just let him go. If you are not able to cut him off and force him behind you, keep driving him play-side and the ball will cutback behind you.

IV. OFFSIDE LINEMEN (COVERED OR UNCOVERED AND ZONE BLOCKING) —

- A) Same techniques as Onside Linemen (Covered = "Drop Step" technique; Uncovered = "Bucket Step" technique.) *off ball*

- V. QB - open up at 5 o'clock (on 4 Gut) or at 7 o'clock (on 5 Gut). Come back at an angle so that you won't blind the RB (don't go too flat - take the deep course). The handoff is usually made at approximately 4 yards deep.

* we will line RB up w/heels at $5\frac{1}{2}$
 IF he is a Riggins type (power) or $6\frac{1}{2}$
 IF A BARRY SANDERS type (quick)

VI. RB - Line up at $6\frac{1}{2}$ yards deep (if the defense is doing a lot of fast flowing or if the Nose is offset to the playside, deepen to 7 yards so that you can cutback easier). Take a normal drop step with your onside foot - cross over gaining ground forward - and begin to stretch (looks like a roll). You begin to square your shoulders by the third step, but they shouldn't be totally square at that point (because this would hamper a cut to the outside). The key coaching point is to stretch the defense! Your aiming point is the inside leg of the ON T, or the B gap. Read the down defender on your ON T - If there is a bubble over the ON T, read the down defender on the ON G (never read a LJ). Run away from the down defender (if he goes out - you cut in, and vice versa). If the down defender you are reading stalemates the blocker, cut it one hole outside. Ideally, hit the B gap and cram it straight ahead (as you hit the B gap, break the arm tackle by the Nose and get 4 yards or more). If the Nose is driven into the B gap, cut behind him (make a natural cut, not a sharp cut). If everyone over pursues, cut it all the way back. Don't make your cut until you get to the original heel depth of the offensive Tack. (this is the hardest thing to teach - the biggest error is that the RB doesn't stretch the defense enough, which disrupts the offensive line in it's effort to stretch the defense). Coaches: don't talk too much about the cutback, because they will have a tendency to cutback too soon!

PUTTING IT ALL TOGETHER

Note: The TE uses essentially the same technique as the covered interior linemen.

NOTE: The theory of this play is that we prefer to run it vs. defenses that are playing soft and reading - defenses that pursue well. We want to "widen the defense that wants to be widened", thus creating holes inside. *If the defense is playing tough and charging over our linemen, we would then call "6 Outside" or "7 Outside".

4-5 GUT BLOCKING (BASE / BLOCKING; MEN AT BUBBLE OR STACK - POWER ZONE BLOCK) VARIATION - BANG BLOCKS.

50 SHADE/EAGLE

NOTE: OFFSET NOSE IS COUNTED AS "ON" THE C. IF N IS ON ANY PART OF ON G, HE & C WOULD ZONE (ON T WOULD BE ALONE).

6-7 OUTSIDE

"Outside Zone"

I. ALL COVERED LINEMEN: Note: Splits for everyone are 2 feet. (Rule = base)

- A) "WIDE DROP STEP" TECHNIQUE - Line up as far off the ball as legal (your hand is on the Center's toes). This is a wider zone scheme than on 4-5 Gut (it is more of a pull). Take a little drop step, but put more emphasis on making a fast crossover (you can cross over beyond your center of gravity a little bit on this technique - you are not actually crossing over as much as you cross step upfield). You will turn your shoulders more because of the wider angle of approach. Sight the target which is a wider head position - get it past his outside shoulder on a wide track. Get your hands up quickly, and make contact with the hands (don't stick the head in) so you can lift, or push the defender back inside as you work up to the LB (your eyes will go to the LB quicker on this technique).

II. ALL UNCOVERED LINEMEN:

- A) "ZONE PULL" TECHNIQUE - Line up off the ball as far as legal (your hand is on the Center's toes). This is a wider zone scheme than on 4-5 Gut (it is more of a pull). Your eyes are not on the LB as much as on the down lineman to the outside (unless the LB is up close - you will release sideways and eyeball him as you work outside). Depending on which foot is back (toe to instep) in your stance, you pivot on the toe of the back foot if going to the side of the back foot, and pivot on the heel of the back foot if going to the opposite side. Make a fast crossover on the second step and pull to overtake the down lineman. You are trying to "scoop" it more, forcing the switch.

III. QB - Open out at 4 o'clock (on 6 Outside), or 8 o'clock (on 7 Outside). "Hump ass" to make the handoff.

IV. RB - Take a slight drop step with the outside foot, and "slash" on a straight line to the inside leg of the TE (outside leg if there is a bubble over the ON T). Read the block of the TE and take it outside, or cut it into the C gap (more often than not, the ball goes into the C gap).

PUTTING IT ALL TOGETHER

*Secondary Run Force man will be blocked either by a motion

Note: Unless the TE is zone blocking with the ON T, his tech. is different. Take a little drop step and drive block the outside # of the OLB. Get movement and drive him on an angle (not as delayed

(exactly how Bugel taught it)

ON TE: A) "TREY" CALL - take a flat lateral gap step with your inside foot, keeping the shoulders square, and drive your inside shoulder right thru the near hip of the DT, with your head on his downfield side. Think of blocking the DT, and if he stays in the C gap area that is your man, period! If the DT disappears across the face of ON T, go to the second level and "build the wall" to the first LB offside. If you get a shot at the ON LB take it, but don't vary off course to chase the ON LB, because the OFF LB is the man that kills the play (if you hit the ON LB and start losing him - let him go, and continue to the first LB offside). This is a very disciplined technique. You and the ON T are working together - both of you are blocking gap - upstream (from the DT to the first LB offside).

B) "GAP" CALL - you have the DE alone, and must get a bigger bite on the DE (you may need to drive your helmet across in front of him and use the far shoulder if he is a penetrator).

C) "DUECE" - same technique as "Gap" call for you.

ON T: A) "TREY" CALL - take a flat lateral gap step with your ^{FORWARD} inside foot, keeping the shoulders square, and drive your outside shoulder thru the inside breastplate of the DT ("get a little bite" to help your TE). Your eyes should go immediately to the inside as you work upfield to "build the wall" to the first LB offside (be alert for the ON LB running thru the B gap as you go for the first LB offside). If the DT comes inside, you must lock onto him, and the TE will "build the wall" at the second level. You and the TE are working together - both of you are blocking gap - upstream (from the DT to the first LB offside).

B) "DUECE" - take a flat lateral gap step with your inside foot, keeping the shoulders square, and drive your inside shoulder right thru the near hip of the DT, with your head on his downfield side. Think of blocking the DT, and if he stays in the B gap area that is your man, period! If the DT disappears across the face of your ON G, go to the second level and "build the wall" to the FAR LB. If you get a shot at the MLB take it, but don't vary off course to chase the MLB (if you hit the MLB and start losing him - let him go, and continue to the FAR LB). This is a very disciplined technique. You and the ON G are working together - both of you are blocking gap - upstream (from the DT to the FAR LB).

C) "GAP" CALL - you have the man on the ON G alone, and must get a bigger bite on him (you may need to drive your helmet across in front of him and use the far shoulder if he is a penetrator).

ON G: A) "TREY" CALL - take a flat lateral gap step with your inside foot, keeping the shoulders square, and drive your inside shoulder right thru the near hip of the Nose, with your head on his downfield side. Think of blocking the Nose, and if he stays in the A gap area that is your man, period! If the Nose disappears across the face of the Center, go to the second level and "build the wall" to the FAR LB. If you get a shot at the first LB offside take it, but don't vary off course to chase the first LB offside (if you hit the first LB offside and start losing him - let him go, and continue to the FAR LB). This is a very disciplined technique. You and the Center are working together - you are working gap - upstream from the Nose to the FAR LB, and the Center is working gap - flat down the L.O.S. from the Nose to the D.

B) "DUECE" - take a flat lateral gap step with your inside foot, keeping the shoulders square, and drive your outside shoulder thru the inside breastplate of the DT ("get a little bite" to help your ON T). Your eyes should go immediately to the inside as you work upfield to "build the wall" to the FAR LB (be alert for the MLB running thru the A gap as you go for the FAR LB). If the DT comes inside, you must lock onto him, and the ON T will "build the wall" at the second level. You and the ON T are working together - both of you are blocking gap - upstream (from the DT to the FAR LB).

C) "GAP" CALL - you have the man on the Center alone, and must get a bigger bite on him (you may need to drive your helmet across in front of him and use the far shoulder if he is a penetrator).

towards end of Gibbs era - center always blocks back (doesn't "chip" nose) see my article.

ON G: A) "TREY" CALL - take a flat lateral gap step with your offside foot, keeping the shoulders square, and drive your onside shoulder thru the backside breastplate of the Nose ("get a little bite" to help your ON G). Your eyes should go immediately to the inside as you hustle flat down the L.O.S. until you "break glass" on the DT (be alert for first LB offside running thru the B gap as you go for the DT). If the Nose crosses your face to the offside you must lock onto him, and the ON G will "build the wall" to the second level. You and the ON G are working together - you are working from the Nose to the DT, and the ON G is working from the Nose to the FAR LB. *C now just blocks 1st man away from the call (would include a shaded NG offside)*

B) "DUECE" - block back on the DT to the offside.

C) "GAP" CALL - you have the man on the OFF G alone (and will not be able to help the ON G with the Nose). You may need to drive your helmet across in front of him and use the far shoulder if he is a penetrator; this may also be true on the "Tag" call also).

OFF G: Pull thru the football. There is no read, trap the end man on the L.O.S. (dig him out). If he gets lost inside, it becomes a natural log. Don't think log, think kick out!

OFF T: Pull one yard deeper and on the hip of the OFF G. Turn up when you get to the butt of the ON T and look over your inside shoulder for the ON LB. Lead thru and don't slow down. (If ON T is ...)

** put this before
previous page*

H: Pull and seal (DE vs. 4-3, and OL3 vs. 5-2).

QB: Open out at 7 o'clock and make it look like 5. Gut on "6. Counter Gap" (open out at 5 o'clock and make it look like 4. Gut on "7. Counter Gap"). After the handoff, you must make a great fake of the bootleg pass by coming outside opposite the point of attack with your hand on your hip.

RB: On "6. Counter Gap" make it look like 5 Gut (and on "7. Counter Gap" make it look like 4 Gut) by taking a flat lateral step with a head and shoulder fake, then driving parallel to the L.O.S. to the outside. Key the block of the OFF T and cut in or out depending on his block (first choice is inside, and second choice is outside)

NOTE: All line splits should be 2 feet (possible exception: OFF T may increase to 3 feet if getting caught up with the OFF G when they pull). Onside is "on" the ball; Offside is in the "semi" position.

PUTTING IT ALL TOGETHER

CENTER'S BLOCKING CALLS:

*A) Bubble over ON G - make "Trey" call.

B) Bubble over the Center, or the Center and ON T - make "Duece" call.

*C) If the Center and the ON G are both covered - make "Gap" call.

*Note: if the Center is going to help the ON G with the Nose ("Pick" blocking) no call is necessary (other than normal calls of "Trey" or "Gap"). If the Center can't help ON G with the Nose (because the OFF G is covered), he should make a call.

** C no longer helps RG -
RG has nose + center
blocks back right aw.
(see my article last FA)*

OTHER RUNS TO BE ADDED

1. "H-AROUND"
(@ 8 or 9)

* We don't
motion RB anymore
now run like skin
did (FAKE INSIDE
ZONE LT. & hand
back to HB)

RB

NOTE: THIS GIVES US A VERY EFFECTIVE PLAY AWAY FROM MOTION (QB CTR. IS OUR BEST PLAY TO MOTION). LINE BLOCKS EXACTLY LIKE THE 6-7 OUTSIDE PLAY EXCEPT FOR THE PULLING GUARD (IF ILB DOESN'T RUN WITH MOTION, WE CAN RUN IT FROM THE 4-5 GUT FAKE & RB CAN BLOCK LB). THE QB BACKS OUT 2 STEPS (LOOKING LB's OFF ON PASS READ) AND TURNS TO HAND BACK TO THE HB.

2. 6-7 OPTION

NOTE: THIS IS A GREAT PLAY VS. MAN COVERAGE (ESPECIALLY "BLITZ LOOKS"). THE LINE BLOCKS COUNTER GAP BLOCKING WITH THE EXCEPTION OF THE OFF G (WHO LEADS INSTEAD OF TRAPS) & THE OFF T (WHO CUTS OFF BACKSIDE RATHER THAN LEADING). THE QB BACKS OUT 2 STEPS (LOOK-
OFF LB's ON PASS READ) THEN OPTIONS END. THE RB TAKES THE COUNTER GAP STEP, THEN ESTABLISHES THE PITCH RELATIONSHIP ON THE QB.

3. 8-9 TOSS

Big Play
for skins
in late
1980's

NOTE: FLANKER CRACKS RUN SUPPORT. H & Y GAP BLOCK (LIKE COUNTER GAP). ON T PULLS & LEADS ON DEEP 1/3 DEFENDER. THE REST OF THE LINE BLOCKS LIKE 6-7 OUTSIDE. THIS HAS BEEN OUR MOST PRODUCTIVE WIDE PLAY OVER THE YEARS, AND COULD BE SUBSTITUTED FOR THE OPTION.

PLAY:

20-21 Con Toss

ON TACKLE	If guard gives you a 3 call then zone chip with him to BSLB. If guard gives you a 2 call, influence last man on LOS and then block BSLB.
ON GUARD	If covered make either a 2 or 3 call to tell tackle the scheme. If uncovered block down and NG off the midline.
C	If covered punch NG and secure backside A gap. If uncovered block back to fill for pulling guard.
OFF GUARD	Pull and kick out last man on LOS. Be sure to get your head on defender's thigh. Don't allow defender to wrong arm and come under.
OFF TACKLE	Pull and turn up square through first opening past the midline. Get your shoulder square, accelerate through the hole and block most dangerous.
T	Pull with tackle and cut off down to the B Gap. You can clip if you need to. If no one shows hinge back and block most dangerous.
X	Block #1
Z	Block middle 1/3 or backside 1/2
B	Cheat depth to 5 yards. Slide step, shuffle and plant away from call side. Aiming point is playside A Gap. Stay on line until you reach LOS. Read OT.
A	Execute Toss Fake away from playside.
QB	Execute Toss Fake away - Make inside hand-off to "B" Back. Boot away.
H	

10-11 DRAW/TRAP
(RB OR QB)

NOTE: CAN BE RUN WITH BASIC 10-11 BLOCKS ALSO
(PARTICULARLY IF OPPONENT BLITZES OPTEN)

NOTE: IF RB IN
MOTION, QB CAN
CARRY (DB 2 STEPS

(we don't
motion RB now)

NOTE: WHEN BOTH G'S & C COVERED, USE
BASIC PASS PRO. BLOCK (TAKE WAY WANT
TO GO)

X & Z: MAN OVER.

H & Y: SET INSIDE ON MAN OVER (PUSH IF OFF LOS).

ON T: SET INSIDE ON MAN OVER (PUSH IF OFF LOS).

ON G: TEEN PASS SET & BLOCK DOWN ON NOSE. IF COVERED BLOCK MAN OVER.

C: TEEN PASS SET & TURN WEAK FOR 1st. MAN ON LOS.

OFF G: TEEN PASS SET & BLOCK LB ON OTHER SIDE OF C; IF COVERED BLOCK 2nd. MAN ON LOS.

OFF T: TEEN PASS SET & BLOCK LB (FROM ON YOU TO YOUR INSIDE).

RB: QUICK JAB STEP & GO! READ BLOCK OF ON G.

KEEP EYES DOWNFIELD UNTIL HAND-

Q&A Nov:

PASS PROTECTION TERMS AND CALLS

TERMS:

- DUAL READ:** Used by Center/Guard on certain protections. Check the LBer over--if he does not rush, check the outside Backer to the side or widest defender. Note: Used on Scat, Scram and Flash/Lighting protections.
- BIG DUAL:** Used by Tackle on certain protections. Check the LBer over--if he does not rush, block the first outside rusher. Note: Used on Scat and Scram protections.
- AGGRESSIVE:** 3-step drop by QB. Line use rules that apply to all particular protection--but, take your blocking responsibility on at the LOS. Be aggressive at the LOS. Do not give ground.
- CHECK SEARCH:** Backs check their blocking responsibility for a blitz. If their blocking responsibility does not blitz, help on the most dangerous rusher. Be alert for solid alignments and 3-man stunts.
- FORCE:** Pre-snap call made by the Offensive Tackle when he and the Guard are covered by down-linemen and there is a defender aligned on the LOS outside.
- OX/DELAY OX:** Pass rush maneuver involving a Wide End and a Wide Buck.

CALLS:

- ORANGE:** Response call made by Left Guard to alert Center he is uncovered and popping off the LOS.
- YELLOW:** Response call made by Right Guard to alert Center he is uncovered and popping off the LOS.
- HOLE:** Call made by Center to alert offensive team that he is covered by a down Lineman or a Linebacker.
- RAY-LENNY** Directional call given by Center to alert alignment of Mac if not in Zero area.
- RAM-LION** Pre-snap call to alert to Zone off their blocking responsibilities. They will set to the right on Ram / left on Lion and block any defender coming into that area (both Guards and Center).

SLIDE: Pre-snap call whereby three or more adjacent Offensive Linemen will zone off their blocking responsibilities (vs. solid fronts).

SWOOP: Call that can be made by the Guard/Tackle/TE/H Back when an overload or blitz is being executed inside by the defense. Each Strongside Lineman will set inside towards the ball and block any defender rushing into their area. Note: Swoop can be used on Scram, Robert-Larry and Flash-Lightning Pass Pro. Note: Swoop vs. Blow and Safety Blitzes in regular and Nickel defenses.

FAN: Big on Big. Guard's first man on LOS. Tackle's second man on LOS. Note: Fan Call alerts R Back to block Inside Linebacker.

HARD: Call made by Guard/Center to alert R Back to swap blocking assignments vs. pre-set blow blitz. Note: Can be used vs. DBL Blow.

**HARD ORANGE/
YELLOW:** Call made by Guard to alert Center and R Back to swap blocking assignments vs. pre-set Solid M Blow.

SOFT: Call and technique used by Offside Tackle vs. pre-set Safety Blitz in Divide Gap.

IN: Call by Onside Tackle to alert Guard threat or pre-set Backer blitz in onside blow gap when Onside Guard is covered by a down Lineman.

ONE BACKER: Call made by Center to alert R Back to block inside in Nickel defense.

EVEN: Call made by Center to alert that he is covered by a Linebacker.

ODD: Call made by Center to alert that he is covered by a down Lineman.

SOLID: Call to alert offensive team that both Guards and Center are covered.

SOLID-DUBS Call to alert offensive team that both Guards and Center are covered with two Outside Linebackers on LOS.

SOLID-DUBS FIST: Call to alert offensive team that both Guards and Center are covered with two Outside Linebackers on LOS and S/S in well (weakside Colt position).

SPECIAL PASS PROTECTIONS:

RIP-LIZ:
(vs 3-4 Defense)

Back checks Linebacker over the Guard for a blitz. IF LBer doesn't rush, release into pattern. If LBer does rush, check outside LBer before releasing into pattern. Guard has dual read.

NOTE: This protection only pertains to a 3-4 defensive look.

ROBERT-LARRY

Blitz pass protection given in huddle for max protection. Used in situations when we are expecting a blitz (4 weak blitz). The call by the Center, Robert (Right), Larry (Left), will confirm that Max pro is on--any other call by the Center will revert back to base pro rules. No blitz alignment--base calls revert back to formation (strong) side.

FLASH/LIGHTNING

Protection designed to get R Back out if defense does not show threat of 4 rush to weakside. Backside (formation side) has same responsibilities as Robert/Larry. If 4 defenders weakside, R Back blocks #4. Wide Receiver and QB have no break-offs. Note: Exceptions for R Back vs. Solid and base fronts.

BASE PROTECTION (2 BACKS)

DROPPACK PROTECTION. BOTH BACKS WILL BE GIVEN A BLOCKING RESPONSIBILITY.
 THE INSIDE IN THIS PROTECTION IS THE FORMATION CALLSIDE (RIGHT-LEFT)
 BOTH BACKS ALERT TO "FAN" CALL TO THEIR SIDE VS. SINK END.

* From Coaches' Notebook

Example: Even 20 (Odds are exactly opposite) Callside = right. (Y has a free release on evens - H has a free release on odds).

- "AN" {
 ONside Tackle - Second man on L.O.S. outside Center (if he drops, help On Guard)
 ONside Guard - First man on L.O.S. outside Center.
 CENTER - On, Away (if man is LB & drops, help Guards)
 "SOLID" {
 OFF Guard - " " (if man is LB & drops, help Center)
 OFF Tackle - " " (if man is LB & drops, help Guard)
 OFF H or Y - " " (flare control off of Def. End - block him if he comes & release if he drops)

 RUNNING BACK - Double read from 1st. LB from inside-out on callside, to man responsible for flat (Monster: S/S; Drop End/8 man front: etc.). If both rush - take the inside man. If one rushes - take him. If neither rushes - go out. C.P. Vs. a one LB defense (6-1, etc.), double read from Def. End to man responsible for flat.

NOTE: Vs. teams that bring both men that the RB is assigned to check, we put the callside H or Y on a "Check-Out" call on the outside man (outside release: if he comes block him - if not run your route). *we do this more*

we do this more
often than not -
gives true "max"
protection.

TIMING FOR 10 & 20 SERIES:

- A) 10 SERIES = QB sets (3 steps) in .8 and throws in 1.5
- B) 20 SERIES = QB sets (5 steps) in 1.3 and throws in 2.5

*EX: EVEN 20's

APPLICATION OF 10/20 BLOCKING RULES

4-5	QUICK TURN II	QUICK OUT	

- ONLY 3 BASIC ROUTES (#'s SAME AS 12 YD. ROUTE TREE EXCEPT ROUTES ARE CUT IN HALF).
- OUTSIDE AND INSIDE RECEIVERS ON CALLSIDE EXECUTE ROUTE CALLED FOR BY NUMBER (ABOVE).
- OUTSIDE RECEIVER AWAY FROM CALL DUPLICATES ROUTE OF OUTSIDE RECEIVER ON CALLSIDE.
- INSIDE RECEIVER AWAY FROM CALL BLOCKS DEFENSIVE END, OR RELEASES INTO PATTERN ON FLARE CONTROL IF END DOESN'T RUSH (SEAM ROUTE ON 0-1, 4-5; CIRCLE ROUTE ON 2-3).
- RUNNING BACK BLOCKS CALLSIDE LB, OR RELEASES INTO PATTERN ON FLARE CONTROL IF LB DOESN'T BLITZ (CIR : ROUTE ON ALL "10 SERIES" PASSES).

Formation DOUBLE RT.

Play 10 PASS (11 = Opposite)

Note: This is one of our best passes vs. Cov. 3, and loose forms of Covers 0 & 1.

VARIATION: 10 Up > Dotted Lines Above (all called receivers run Up routes)
 11 Up >

Note: This is one of our best passes vs. Cov. 2 (vs. a steady diet of Cov. 2/zone under, Y can run a flat route to hold the Corner).

Post.	Assignment (Base 10 Pass)	Coaching Points
QB	3 step dropback (set in .8; throw in 1.5)	Pre-read flat areas for A) deepest CB & B) cleanest walkaway area. Generally speaking, go strong vs. 3 deep & weak vs. 4 deep.
RB	Attack G-T gap & pick up SLB blitz.	IF HE DROPS RUN CIRCLE ROUTE.
TE	Aggressive block end (kick out w/outs. shoulder).	
Z	4 step hitch (after catch, roll it outside).	convert to fade vs. hard corner.
Y	Seam route. Use outside release.	
X	4 step hitch (after catch, roll it outside).	convert to fade vs. hard corner

NOTE: "14/15" Pass — same as above except X & Z run quick out.

VS. COV. 3

10-11 PASS (Ex: 10)

QB: Go to side of deepest CB & read the Def. End *(OR WHOEVER COVERS THE FLAT.)*

- A) If End covers seam, hit WR;
- B) If End covers WR, hit seam.

10 UP-11 UP (Ex: 10 UP) LOOKING FOR INSIDE RECEIVERS:

QB: Read the Free Safety:

- A) If he moves towards Y (or turns his shoulders to Y), hit H. B) Vice-Versa.

10 UP - 11 UP (Ex: 10 UP) LOOKING FOR OUTSIDE RECEIVERS:

QB: Go to side of closest corner (don't look F/S onto throw until 3rd. step - eyeball him to keep him in center field.)

"EMPTY"

* ON this, we put
OFF. Line shoe to
shoe + use solid
PROTECTION ON both
sides

"EMPTY"

ALIGNMENTS:

X & Z: 5 yds. from sideline.

Y: 5 yds. from RB.

H & R: 5 yds. from offensive tackle on your side.

II. RULES:

X & Z: 1. Run Hitch
2. Convert to fade vs. hard corner.

Y: 1. Run Hitch
2. Run Slant vs. any man coverage on you.

H & R: 1. Run Seam route.
2. If uncovered - look for ball right now on release.

QB PROGRESSION:

1. If H or R uncovered - take one step back and hit them right away.
2. If H and R covered - go to uncovered outside receiver with 3 step drop.
3. Any type of Man to Man
 - A) Free/S with defenders at least 5 yds. off - throw Slant to Y or Hitch to X or Z.
 - B) No F/S with defenders at least 5 yds. off - same as A).
 - C) Free/Safety with defenders inside of 5 yds. - throw fade to X or Z to Slant to Y.
 - D) No F/S with defenders inside of 5 yds. - throw Slant to Y to FADE to X or Z.

Formation DOUBLE RIGHT

Play 12 PASS (13 = OPPOSITE)

Post.	Assignment	Coaching Points
QB	1 STEP DROP. READ PROGRESSION OF RECEIVERS ON THE WALL SIDE LOOKING FOR Z FIRST + Y SECOND	
RB	SAME AS 10-11 PASS	
WR	AGGRESSIVE BLOCK END. IF HE DOESN'T RUSH, RUN FLAT ROUTE (COME UNDER THE X END)	
Z	RUN A DIAGONAL ROUTE LOOKING FOR THE BALL RIGHT AWAY	
Y	FLAT ROUTE (COME UNDER THE Z FLANKER)	
X	SAME AS Z	

"FLEX FORMATION 10 PASS"

1. Outside Receivers (X & Z) run 6 yd. hitch. CP: Fade vs. hard corner.

2. Inside Receivers (H & Y) run vertical seam routes. If uncovered come off ball at half speed - will get ball no deeper than 7-8 yds. deep. If covered run route at full speed through the inside number of the man covering you.

3. QB Read:

- A. Look for the vertical route first. If it is uncovered, take one step and hit the inside receiver right away.
- B. If the inside receivers are both covered, look at the outside receivers. If the corner is off of the outside receiver, take a 3 step drop and read the man covering the inside receiver. If he breaks to the outside, hit the vertical route. If he drops with the inside receiver, throw the hitch.
- C. If the QB reads the inside receivers covered and the corners hard on the outside receivers, QB signals "Fade" to outside receivers and we run "10 Up". NOTE: In this case, the numbers are good on the inside running game and with a code word we can automatic to "60 Cross".
- D. Vs. close man coverage on all 4 receivers, use "12 Pass" (below). QB will pre-read the defense to decide what side to throw to.

"12 PASS" (DOTTED LINES = "12 DIAGONAL")

33

1. Outside Receivers (X & Z) run 6 yd. slant.

2. Inside Receivers (H & Y) run flat route.

3. QB: 3 step drop and look from outside receiver to inside receiver on side of your pre-snap choice.

...slant to right away (without

Formation Double Right

Play 20 Pass (21 - Opposite)

NOTE: All 20 Series passes can be run from "Trips/Whiz" or "Flood/Zac" (both put you back in "Double")

Post.	Assignment	Coaching Points
QB	5 step drop (set in 1.3; throw in 2.5). Read progression of receivers on the callside from inside-out, looking: 1) Y, 2) Z, 3) RB.	
RB	Check callside backer(s). If blitz, block. If no blitz, run 4-5 yd. flat/hook.	
HB	Check offside defensive end. If blitz, block. If no blitz, run 4-5 yd. flat/hook.	
Z	Run 8 step curl route (12-14 yds. deep).	
Y	Free release - run 10-12 yd. curl route. Use inside release.	
X	Same as Z. (Mirror route).	

NOTE: If QB "trigger reads" and goes offside, read progression from inside-out of: 1) X, 2) H.

Formation Double Right

Play 22 Pass (23 = Opposite)

NOTE: Base pass vs. Cov. 0.

Post.	Assignment	Coaching Points
QB	5 step drop (set in 1.3; throw in 2.5). Read progression of receivers on the callside from long to short, looking: 1) Z, 2) Y, 3) RB.	
RB	Same as 20 Pass.	
HB	Same as 20 Pass.	
Z	Run 6 or 8 step Post route (break at 10-12 yds. deep).	
Y	Free release - run 10-12 yd. Out route. Use outside release.	
X	Same as X	

NOTE: If QB "trigger reads" and goes offside, read progression from inside-out of: 1) X, 2) H. (same as 20 Pass).

Formation Double Right

Play 24 Pass (25 - Opposite)

Post.	Assignment	Coaching Points
QB	5 step drop (set in 1.3; throw in 2.5). Read progression of receivers on the callside from outside-in, looking: 1) Z, 2) Y, 3) RB.	
RB	Check callside backer(s). If blitz, block. If no blitz, run 6 yd. circle.	
HB	Check offside defensive end. If blitz, block. If no blitz, run 6 yd. circle.	
Z	Run 8 step Out route (12-14 yds. deep). (align 2-3 yds. ins. normal) <i>convert to fade vs. hard corner</i>	
Y	Free release - run 10-12 yd. Curl/Out route. Use outside release.	
X	Same as Z. (Mirror route).	

NOTE: If QB "trigger reads" and goes offside, read progression from outside-in of: 1) X, 2) H.

NOTE: Base pass vs. Cov. 3 & Cov. 1 (not bad vs. Cov. 0)

NOTE: 26 Y Flat & Up/27 H Flat & Up (dotted lines above) - call to be made when CB's follow Curl inside (any cover), and vs. Cov. 0.

Post.	Assignment	Coaching Points
QB	5 step drop (set in 1.3; throw in 2.5). Read progression of receivers on the callside from inside-out, looking: 1) RB, 2) Z, 3) Y.	
RB	Same as 24 Pass.	
HB	Same as 20 & 22 Pass.	
Z	Same as 20 Pass.	
Y	Free Release - run 4-5 yd. flat/hook. Use outside release.	
X	Same as 20 & 22 Pass. (Mirror route).	

NOTE: If QB "trigger reads", and goes offside, read progression from inside-out of: 1) X, 2) H. (same as 20 & 22 Pass).

Formation Double Right

Play 28 Pass (29 Pass)

NOTE: When "Post-Corner" call added for X & Z, this becomes our base pass vs. Cov. 2.

NOTE: 28 Post-Corner/29 Post-Corner (dotted lines above).
(Post-Corner is 6 steps downfield, 3 steps to the post, then break to the corner flag in end zone).

Post.	Assignment	Coaching Points
QB	5 step drop (set in 1.3; throw in 2.5). Read progression of receivers on the callside from long to short, looking: 1) Y, 2) Z, 3) RB.	
RB	Check callside backer(s). If blitz, block. If no blitz, run Swing.	
HB	Same as 20, 22, & 26 Pass.	
Z	Run 8 step In route (12-14 yds. deep).	
Y	Free release - run 10-12 yd. Post route. Use inside release.	
X	Same as Z. (Mirror route).	

NOTE: If QB "trigger reads" and goes offside, read progression from inside-out of: 1) X, 2) H.

GREAT vs BLITZ (esp. 8 MAN FRONTS) (w/o going "hot")

22-23 PASS ----- very good vs. an 8 man front that blitzes a lot, is to call 2 passes (opposites of each other) in the huddle, and say "check with me at the line". Example: "22 or 23 Pass - check with me at the line". Now, if they are going to blitz, they will go M/M in the secondary. They will always bring 4 people to the side the Safety lines up on (whichever Tight End he covers), and only 3 people to the other side (someone has to cover the other Tight End). So check to the pass opposite the side the Safety aligns (because we have 4 protectors backside in our normal protection). Use colors; "Red" = right (22 Pass), and "Blue" = left (23 Pass). This is a GREAT CONCEPT!

Example: Safety aligns to our right, so we call "Blue" (meaning we will execute 23 Pass).

NOTE: This color call system can be used also on 26-27 Pass (call color opposite of Monster). Used on runs in the same way to get a toss or option away from the Monster, etc.

BOX-READ CHART

I. BASE FORMATION (No hits or uncovered rule)

5 YDS. FROM L.O.S.

A) 8 MEN IN BOX = PASS

B) 7 MEN IN BOX = RUN

II. ONE T.E. FLEXED

(H is uncovered - ~~OR~~ hits him on 1st step drop - H catches ball about 3 yds. deep)

5 YDS. FROM L.O.S.

A) 7 MEN IN BOX = PASS

B) 6 MEN IN BOX = RUN

III. BOTH T.E.'S FLEXED

5 YDS. FROM L.O.S.

A) 6 MEN IN BOX = PASS

B) 5 MEN IN BOX = RUN

Look for H + Y uncovered)

C

PLAY ACTION
PROTECTION

- DT TURNBACK (Turnless ins. G)
- OG TURNBACK: Cp. IF YOU AND TACKLE ARE BOTH COVERED BLOCK STRAIGHT (inc. on or off)
- C TURNBACK: ALERT STRAIGHT CALL
- BG TURNBACK: ALERT STRAIGHT CALL
- BT TURNBACK: ALERT STRAIGHT CALL
- Y ROUTE
- X ROUTE
- Z ROUTE
- H BLOCK #3 CONTROLLED AGGRESSIVE
- R 4-5 GUT FAKE: BLOCK PLAYSIDE LB Cp. IF LB ON LOS CHECK MIKE TO WILL. YOU ARE RESPONSIBLE FOR PERIMETER PRESSURE STRONG.
- QB 4-5 GUT FAKE: PLAY ACTION TECHNIQUE

STACK STRONG WILL STACK

EAGLE WEAK (NOSE OVERSHIFT STRONG)

4-5 GUT PASS

Note: We will have two basic patterns off the 4-5. Gut fake. They are shown below, along with the protections vs. the 5-2 and 4-3.

"4 GUT PASS/UP" (vs. 5-2)

Note:
If H has a free release, RB must double read strong.

X & Z = Up

H & Y = Seam down hash

"4 GUT PASS/TEXAS" (vs. 4-3)

X = Post/Clearout

H = block strong

Z = Post/Cross

Y = Drag

6-7. COUNTER WAGGLE PASS

~~we replaced~~
this blocking with
"sucker" blocking (en-
closed loose sheet)

Rules For Receivers: (needed so that we can run this pass from all of our formations with no confusion)

A) Playside:

- 1) Outside Split Receiver = fade (note: if you are the outside receiver and are a tight end, run a corner). CORNER if INS. 20
- 2) Inside Receiver (tight end) = flat.

B) Dackside:

- 1) First Receiver Dackside (usually a tight end) = drag at 8 to 12 yards depth. Keep a vertical relationship with the QB (mirror the QB crossfield).
- 2) Second Receiver Dackside = post.
- 3) Third Receiver Dackside (Flood or Trips) = fade.

NOTE: If there happens to be a middle receiver on the playside (Z in "Flood", etc.) he runs an out.

Vs. 4-3

* Big play for Gibbs

"NAKED"
@ 9"

- A) OB: SUPER FAKE OF 6 OUTSIDE - THEN COME FLYING OUT OF FAKE & BE READY TO THROW QUICK IN CASE DE IS HANGING FOR BOOTLEG.
- B) HB: MUST DELAY 3 COUNTS - SQUEEZE C GAP TO GIVE APPEARANCE OF BLOCKING ON OFFSIDE LIKE RUNNING PLAY.
- C) Y: SAME AS 6-7 COUNTER WAGGLE PASS. CLEAR ILB's & FIND WINDOW TO QB (KEEP VERTICAL RELATIONSHIP BY MIRRORING QB).

NOTE: RUN FROM "UP" FORMATION AS A PART OF OUR "CHECK WITH ME" SERIES. (CHECK AWAY FROM "MONSTER", ETC.)

THIS IS THE REDSKINS FAMOUS "SUCKER BLOCKING" on the "COUNTER-G. PASS". IT IS GREAT VS. TEAMS that Key Guards. w/ILBs (they collide).

COUNTER PASS	
50	<p>(ODD)</p>
50 SHADE REDUCED	<p>(ODD)</p>
JARTER-BACK	Fake counter, attack perimeter. (May pull up.)
AIL-BACK	Fake counter offside, block Mike to Sam, run screen.
ULL-BACK	Release thru "C" gap. (Chip end man on LOS if he rushes.
LANKER 'Z'	Pole.
20	<p>(STACK)</p>
1000 Y'	Slam, inside release, shoot.
SPLIT END - X'	Streak.
80	<p>(SPLIT)</p>
ONDSIDE TACKLE	Pull end trap onside "A" gap.
ONDSIDE GUARD	Pull end trap offside "A" gap.
CENTER	Angle on.
OFFSIDE GUARD	Pull deep and log/trap.
OFFSIDE TACKLE	On, inside (aggressive)
53	<p>(ODD)</p>
40	<p>(BEAR)</p>

THE ONLY OTHER P.A.P. they used to ANY extent is the INSIDE ZONE FAKE.

PASS MECHANICS

1. THE QB CALL:

- 1.1 PROTECTION BY NAME
- 1.2 PATTERN BY NUMBER
- 1.3 BACK ROUTES BY NAME

2. PATTERN:

- 2.1 INDIVIDUAL RECEIVER ROUTES ARE NUMBERED.
- 2.2 OUTSIDE RECEIVER ROUTES ARE: "O"-1-2-3-4-5-6-7-8-9
- 2.3 INSIDE RECEIVER ROUTES ARE: "O"-10-20-30-40-50-60-70-80-90
- 3.4 PASS STRENGTH IS DETERMINED BY TWO RECEIVER SIDE.

NORMAL

SLOT

3.5 THREE DIGIT CALL - 585: WS = 5 IS = 80 SS = 5

3.6 TWO DIGIT CALL - 85: IS = 8 SS = 50 WS = MEMORIZE

3.7 ONE DIGIT CALL - 5: WS = 5 IS & SS = MEMORIZE

4. BACK ROUTES:

- 4.1 BACK ROUTES ARE NAMED BY COMBINATIONS CALLED:
- 4.2 SINGLE CALL - SWING H SWING - R SWING
- 4.3 H CALL - WIDE H WIDE - R MEMORIZE
R CALL - WIDE R WIDE - H MEMORIZE
- 4.4 DOUBLE CALL - H CORNER SWING H CORNER - R SWING
DOUBLE CALL - R ANGLE - WIDE R ANGLE - H WIDE

5. NAME PATTERNS - THE BACKS AND RECEIVERS MEMORIZE ASSIGNMENTS.

6. FOUR DIGIT PATTERNS - STRONG 1ST - 16 / WEAK 2ND - 85 PIVOT.

"R" AND "FB(H)" - DROPBACK PASSING GAME

General Rule: will do one of 3 things: check-search check-release Free release

1. Check, Search

- 1.1 Check assigned defender for possible dog/Blitz; none - stay in and search for a free defender
- 1.2 Only help if needed
- 1.3 Must not retreat into QB's face
- 1.4 Technique - 2 slide steps to outside on snap, then proper position to pick up blitz/dog or search

2. Check, Release

- 2.1 Check assigned defender for possible dog or blitz; none - release on a route inherent to the pattern called

3. Free Release

- 3.1 Scram Rt/Left = "R" back on a free release (no blitz pick-up) to the open side
- 3.2 Scat Rt/Left = "FB" or "H" on a free release to the IE side

Critical Factors

1. Must recognize defenses and communicate with offensive line
2. Must expect defenses to shift (even at last second before snap)
3. Must listen for and anticipate lineman calls.
4. Must know the LBers designation.
5. Must know if 34 defense add a mike
6. Must know what is called a Loner
7. Must know what is called a Force

KEY COACHING POINTS

PROTECTION

Regular (Firm)

- QB - Strongside read, MOF closed stay strong unless S/S is wide in the box area; MOF open can work inside/out verticle stretch, or best release.
- S.B.- 1st linebacker inside out not counting Mike - aggressive; check down.
- W.B.- 1st linebacker aggressive, check down.
- "X"- 1 Route, wide split, fade vs. Roll
- "Y"- 9 Route
- "Z"- 1 Route, wide split, fade vs. Roll

(FIRM) 212 "H" FLAT

KEY COACHING POINTS

- QB - Coverage read, MOF closed throw away from rotation or by game plan; MOF open can work either side; or by game plan.
- S.B. - 1st linebacker inside out not counting Mike, run tag.
- W.B. - 1st linebacker run tag.
- "X" - 2 Route, fade vs. Roll
- "Y" - 1 Route
- "Z" - 2 Route, fade vs. Roll

PROTECTION

Firm Regular

787 WIDE

KEY COACHING POINTS

QB = Strongside read, MOF open read deep to short inside/out. MOF closed read deep to short outside/in. Responsible with X for W/S.

S.B. = 1st linebacker Inside out not counting Mike, swing if not tagged.

W.B. = 1st linebacker swing if not tagged.

"X" = 1st Digit 7, adjust Vs. W/S Blitz

"Y" = 2nd Digit 8

"Z" = 3rd Digit 7

PROTECTION

Regular
